

Grip It® Foam

For an ultimate grip in wet & oily conditions

Grip It® Foam is an extremely comfortable nylon liner with a light porous foamed nitrile coating that provides an excellent grip and has high abrasion resistance. Snug fitting to give maximum dexterity, the seamless knitted liner is extremely flexible and comfortable to wear. The back of the hand has been left uncoated to provide ventilation keeping the hands cool by allowing them to breathe. The elasticated knit wrist ensures a secure fit and keeps the hands free from dust and debris. As well as providing excellent dry grip, the foamed nitrile coating channels oils and liquids away from the glove surface providing a superb wet grip. This makes the Grip It® Foam an excellent choice of general handling glove when safe and secure handling is required, especially in wet and oily environments.

Typically used for:

- Component Handling
- General Assembly
- Electronics
- Light Engineering Work

Case Quantity:

10 pairs per polybag
120 pairs per case
