

Long Nite™

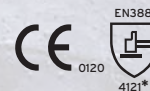

Long Nite™ is a nitrile coated gauntlet on a cotton liner with an integral nitrile sleeve. This nitrile gauntlet performs well to protect against oil, grease and various detergents. It has a granular dip finish over the entire hand area which provides a roughened surface increasing the level of grip for safer handling in both wet and dry conditions. It is anatomically shaped and flexible minimising hand fatigue, and the soft cotton liner eases donning and prevents discomfort keeping the hands dry, cool and comfortable. The integral nitrile sleeve provides extra splash protection to the arms and is elasticated at the top keeping the sleeve in place and preventing any liquids or debris from entering.

Typically used for:

- Oil Filtration
- Drainage Works
- Cleaning & Janitorial

Case Quantity:

6 pair per polybag
36 pairs per case

*EN388 scores apply to the hand area only
