

Vyclear[®]

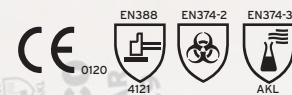

Vyclear[™] from Polyco is a chemical resistant clear dipped PVC glove supported by a cotton interlock liner. This PVC glove performs well to provide protection against various chemical hazards and is especially resistant to acids and alkalis. Attaining maximum EN388 score for abrasion resistance and with good tear protection, the Vyclear[™] offers excellent mechanical safety and has a long life expectancy. The PVC coating supported by the cotton interlock liner has good insulating properties and is ergonomically shaped allowing for greater movement thus minimising hand fatigue even in prolonged use. With an excellent grip, it is ideal for handling oils, grease and acids. The Vyclear[™] delivers exceptional performance and reliability, and its cost effectiveness and protective qualities make it an ideal choice for use in applications where chemical handling is required.

Typically used for:

- Petro-Chemical Operations
- Chemical Processing
- Oil Refining

Case Quantity:

10 pair per polybag
50 pairs per case
