

## Granite 5<sup>®</sup> Delta

The Granite 5<sup>®</sup> Delta is a quality split leather glove with a seamless high cut resistant liner that offers outstanding protection. Attaining maximum EN388 scores in all categories, the Granite 5<sup>®</sup> Delta offers the user an excellent level of protection. It is made from a high quality split leather which is reinforced at the palm and thumb area, and extends to provide extra protection around the wrist. Double stitched Kevlar<sup>®</sup> thread is used throughout for extra strength. The seamless liner is made from a soft yarn to provide exceptional comfort for the wearer and allows for the glove to be worn for long periods of time without discomfort. Additionally, the glove conforms to standard EN407 for Thermal Hazards, obtaining a maximum score for burning behaviour and small splashes of molten metal.

### Typically used for:

- Handling Sharp Objects
- Handling Sheet Metal
- Glass Handling
- Automotive Manufacturing

### Case Quantity:

1 pair per polybag  
20 pairs per case
