

Matrix[®] GH112

Matrix[®] GH112 is a cotton liner with a heavyweight three-quarter nitrile coating, which combines comfort with the protection of nitrile. The cotton interlock support liner with anatomically shaped nitrile coating makes the Matrix[®] GH112 very comfortable and reduces hand fatigue enabling extended wear. Offering good resistance to abrasion, the three-quarter nitrile coating also has an excellent dry grip and good resistance to grease and oil. With a knitted wrist to prevent any dust and debris from entering, this glove offers good value for money and is an ideal choice for general handling duties.

Typically used for:

- Metal Pressings
- Fabrication
- Rough Castings
