

## Reflex<sup>®</sup> G5

Reflex<sup>®</sup> G5 is a high cut resistant liner with a crinkle latex coating for exceptional wet and dry grip. The seamless knitted liner attains the highest level of cut resistance, European standard EN388 Cut Level 5. The yarn is made with a soft finish providing exceptional comfort to the wearer and is elasticated at the wrist to ensure a secure fit. The crinkle latex coating offers added protection against abrasion, tear and puncture hazards, as well as providing excellent grip in both wet and dry conditions. It is extremely flexible and is anatomically shaped to reduce hand fatigue in extended use. This glove is ideal for use in environments where there is a high level of risk from cut injury, and when a safe grip is needed.

### Typically used for:

- Glass Handling
- Automotive Manufacturing
- Sheet Metal Fabrication
- Glazing

### Case Quantity:

10 pairs per polybag  
60 pairs per case

Size	G5	Length
7	9000	23cm
8	9001	24cm
9	9002	25cm
10	9003	26cm
